Make learning limitless
July 18, 2020
DEEPAK RAJ, CHAIRMAN, PRATHAM USA

The best one can hope for in a crisis, other than that it end quickly, is that it inspires solidarity and allows something better to emerge.

I am awed and humbled by how all of you have come together in Pratham’s hour of need. We made an urgent appeal to you six weeks ago, telling you about the funding gap in our already reduced 2020 budget. A gap that would mean thousands of India’s children not receiving the only learning touchpoints they have got since schools closed in March. A gap that would result in stunting the education of those who can least afford that to happen.

Thanks to all of you however, we have closed half of that gap. We hope to raise more this evening.

Your support is valuable to us anytime. Right now it is a lifeline. The world has turned upside down in the past four months. But your being here shows that we are all in this together—and together we shall help create a stronger, more resilient organization.

Thank you for your support and for joining us tonight.

Loeb visiting professor of Digital Innovation at Stony Brook University School of Journalism in New York, and former Chief Digital Officer of New York City, Metropolitan Museum of Art and Columbia University. Prior to that, he spent 20 years as a professor of journalism at Columbia. He emceed his first Pratham NY gala in 2007.
For over 25 years, Pratham has worked at scale across India to address the country’s education crisis. We have transformed the lives of the most vulnerable children and youth—75 million and counting—by promoting basic literacy as a means to establish a secure foundation for learning, both in and out of school.

This year, confronted with the unprecedented challenge of a nationwide lockdown, we leveraged our experience to meet the needs of children who face enormous barriers to quality education even under normal circumstances.

Our investments in EdTech, together with a well-established presence on the ground, allowed us to reach 12,000 communities quickly and effectively. Our dedicated staff of 7,000—the lifeblood of our organization—reimagined the world as a classroom.

Supported by 130,000 volunteers, we offered daily lessons through a variety of mediums—Zoom, WhatsApp, text
messages, even old-fashioned phone calls, radio and TV programs—
to ensure that children remained reassured and focused on learning.
In addition, 14 state governments and 250+ NGOs adopted our vast
digital repository to reach millions more.

While the coming months—even years—
will be difficult, Pratham is already rising to the
challenge. During the pandemic, we have
learned many lessons and discovered viable
opportunities to reinvent education using
technology.

Pratham is no stranger
to innovation. For a
quarter-century, we have
pioneered new
approaches to learning.
At this unique moment in
our history, as we reflect
on our accomplishments
while preparing for an
unpredictable future,
there is one certainty
about Pratham—the
possibilities are limitless.

Children in grades 1-5 in Bihar are attending school via
Television! Every Monday to Friday, Pratham’s learning
content is aired on the local channel—Doordarshan Bihar.
